

INSTITUTE OF GAMES

PARENTS AND COMMUNITY PRESENTATION

for parents, and the community

97% of teenagers play video games.
Boys play on average 2.5 hrs per day!
9% of gamers are a problem gamers.

Gaming is the most popular form of entertainment of today and it's having a big impact on our children, both in positive and negative ways.

For many families video games are a source of stress and conflict. How do we support and resource these families to make sure gaming stays fun, positive and safe!

Steven Dupon, Director of the Institute of Games delivers workshops and training sessions to professionals and parents about gaming and their impact on families. Steven gives a balanced view outlining both the opportunities and the risks.

The Institute of games gives you an in-depth understanding of the impact of video games and how to keep children safe within games.
